

Empowering Business Communications

Green Unified Communications Platform

NUSO's Green Platform is a more cost-effective Unified Communications (UC) Service aligned and built for your marketplace. This dedicated product is rich with the features needed by Small and Medium-sized businesses, as well as the Enterprise sector. Voice, Video, Mobility, and Call Recording are just a few of the great features within the Green UC Platform.

Voice + Mobility + Messaging + Presence + Conferencing + Video

RELIABLE

Our geographically redundant network is configured to the highest industry standards providing unmatched uptime and reliability.

ADAPTABLE

As the business grows, easily add users and services that complement the business.

CONFIGURABLE

Create multi-location sites all under a single business unit.

SYNC MULTIPLE DEVICES

Stay connected both in the office and while away via phone, web client, or a smartphone device at no additional cost.

ONLINE MANAGEMENT

With an easy-to-use portal and interface, make moves/adds/changes in a snap.

LOWER COST

One low monthly payment. Experience high-end features without added costs.
